Chief

Director, STIB

17 April, 1951

Subject: Operation "DRAGON RETURN"

1. Attached is the analysis of cases dealt with under Operation "DRAGON RETURN" for the month ending 4th April, 1951.
2. There were few entirely new cases during the month but a good deal of progress was made in exploiting "proceeding" cases, particularly in the electronics field.
3. A particularly happy feature was the close co-operation with us of German electronics interests, and our method of working with the Americans, in whose Zone the electronics industry is centred, showed good promise for the future.
4. I have not yet had an up-to-date assessment of the value of the Operation, but from what I have heard in London, it has, particularly on the electronics side, posed more problems than it has solved. The Operation is daily demonstrating its considerable long-term potential.

COVERAGE

- xxxx Full coverage over complete range of projects.
- xxx Full coverage over most projects or good general overall knowledge.
- xx Good cover on certain projects only.
- x Some specialised knowledge or some general knowledge.

NOTE

Completed

- implies that the informant did in fact return from the establishment named and exploitation has been completed.

Proceeding

- implies that the informant has returned from the establishment named, but exploitation is not complete, nor has direct contact necessarily been obtained. ONLY KEY CASES WILL BE DEVELOPED TO COMPLETION.

Preparatory

- includes unconfirmed returns to GERMANY and imminent returns.

Suspended

- indicates informant at present inaccessible, other informants available or casework has been stopped because of security reasons.

(This classification is not necessarily final.)

Subject: Operation "DRAGON RETURN"

1. Attached is the first "DRAGON RETURN" Progress Report prepared in the form which we discussed. This avoids presenting you with the large working document. The information given in this report, of which one copy only is prepared for you, is easily extracted from the main report.
2. Perhaps you would let me know if this form of report keeps you adequately informed of our progress.

MEMORANDUM

To: Chief

From: Director, STIB

Date: 9th January, 1951.

Signature: 

Subject: Operation "DRAGON RETURN"

1. From the early planning stages of Operation "DRAGON RETURN", the late Chief was closely interested in each detail of the development of the Operation. Apart from discussion on individual cases, the arrangement by which he was kept informed was the provision of a monthly Progress Report which set out briefly the overall position and the stage reached in each case.
2. Up to a few months ago, this was a small and easily manageable document, but every case usually involved a development of technique on which I kept him informed as the cases arose.
3. Attached is the Progress Report up to 2nd January, 1951. In view of the intense development of the last few months, the document is no longer easily manageable. Nevertheless, this Operation represents one of our best hopes for the future and it is clear that you should be kept informed of the overall position, certainly not less than monthly.
4. Those aspects which I feel sure should be presented monthly are probably:
 - (a) the extent of the Operation numerically and by technique;
 - (b) the geographical range of targets being covered;
 - (c) the proportion and relative importance of information concerning the different scientific and technical subjects.
5. I should like to discuss with you the form in which I can keep you up-to-date without burdening you with too much paper.
6. I should perhaps explain that the paper was originally for the Chief's information only. Distribution was extended to the other three recipients who handle it on a personal basis, and to them it is a working document.

Director STIB

*Thank you. We spoke
on this*

MEMORANDUM

To: Chief

From: Director, STIB

Date: 9 December, 1950.

Signature: 

Subject: Operation "DRAGON RETURN"

1. The monthly Progress Report of Operation "DRAGON RETURN" was not sent you in October in view of the recent larger scale transports. I am now enclosing a Progress Report complete up to 5th December, 1950.
2. As I mentioned verbally, the ruling that we might not include cases of Atomic Energy interest has now been reversed and we are no longer in the position of having to send a "doctored" copy to the Americans. At the request of EUCOM and USAFE, a copy is going to both organisations under guarantee of personal handling. If the American guarantees are adhered to, there should be no action on cases in the "Proceeding" column by them without prior consultation with us. In fact I understand that in both cases, action will not be instituted by the Americans on any "DRAGON RETURN" case without prior discussion.
3. The document now makes very interesting reading.

Office Copy - No. 2

DJT/JEM

NOTECompleted

- implies that the informant did in fact return from the establishment named and exploitation has been completed.

Proceeding

- implies that the informant has returned from the establishment named, but exploitation is not complete, nor has direct contact necessarily been obtained.
ONLY KEY CASES WILL BE DEVELOPED TO COMPLETION.

Preparatory

- includes unconfirmed returns to GERMANY and imminent returns.

Suspended

- indicates informant at present inaccessible, other informants available or casework has been stopped because of security reasons.

(This classification is not necessarily final.)

Subject: Operation "DRAGON RETURN"

Attached is the "DRAGON RETURN" Progress Report up to 20th September, 1950, which has been delayed through my illness.

2. No comments on the new form of the Progress Report were received from Hugh YOUNG and we have incorporated your request to show the value of the results obtained by reverting to the star system previously in use. It should perhaps be mentioned that four stars may indicate that the value is not necessarily in the Intelligence of RUSSIA obtained, but also in the future operational use of the returnee as a contact giving further leads.

3. The figures are by now hopelessly out-of-date in view of the large scale return of ex JUNKERS and BMW specialists. These will be included in the next Progress Report.

4. If our information is true that the return of specialists from KUIBYSHEV alone is phased over a period until June, 1952, our faith in "DRAGON RETURN" as a productive long term Operation seems to be fully vindicated.

Office Copy - No. 2

DEE/JEM

Director STIB

I very much agree.

N O T E

Completed

- Implies that the informant did in fact return from the establishment named and exploitation has been completed.

Proceeding

- implies that the informant has returned from the establishment named, but exploitation is not complete, nor has direct contact necessarily been obtained.

Preparatory

- includes unconfirmed returns to GERMANY and imminent returns.

Suspended

- indicates informant at present inaccessible, other informants available or casework has been stopped because of security reasons.

(This classification is not necessarily final.)

MEMORANDUM

To: Director.

From: Mr. Taylor

Date: 22 September, 1950.

Signature: 

Subject: Operation "DRAGON RETURN" - Progress
Report for September, 1950

1. I have endeavoured to comply with the Chief's wishes as shown on the covering memorandum to our August Progress Report by reverting to our previous star system for showing the value of an informant regarding Completed cases. I hope this is satisfactory.

2. For your information, the difference in figures this month is as follows:-

- (a) GRAF leaves the Completed Column and has been placed on the Proceeding column as we have now decided to re-open the case ourselves because of fresh information he is in a position to offer.
- (b) WYSZOMIRSKY has been taken from the Proceeding column to the Preparatory column because John Horner has informed us that he is not on the verge of returning.
- (c) MUNDSTOCK has been taken from the Suspended column and placed on the Proceeding column because LONDON have evinced an interest in him.
- (d) Frau WIEMANN is a new case and goes in the Preparatory column.
- (e) "SCHOTT specialist" is a new case for the Proceeding column.
- (f) JAHNKE (U.S. case) is a new case and goes in the Proceeding column.
- (g) MAUL (and other KIMRY personnel) is a new case going on the Preparatory column.
- (h) FUCHS is also a new case going on the Proceeding column.

3. Thus we have one deletion for the Completed column, five additions and one deletion, equalling four additions for the Proceeding column, three additions for the Preparatory column and one deletion for the Suspended column.
